

## FIRE PROTECTION EQUIPMENT SOLUTIONS

Fire Protection Equipment Services are essential for ensuring the reliability, compliance, and overall effectiveness of fire safety measures within a business. Regular maintenance is a proactive approach to safeguarding both people and property.

ESCO Group is a versatile company that provides electrical construction, electrical engineering, plant automation, arc flash incident energy analysis, fire alarm systems, and electrical safety training services to a wide variety of commercial and industrial clients, primarily within the food & beverage, manufacturing, agriculture, and municipal markets. By empowering people, providing exceptional services, and delivering on promises, ESCO is known for responsible and reliable support and excellent, custom-made solutions.

When you work with ESCO, you are working with a company that forms strong relationships with our clients which gives us in-depth knowledge of your systems, what your needs are, and how your process operates. It's a partner-ship approach, meaning we partner with our clients and become an integral part of their team.

## 24-Hour Monitoring Service

To assure our clients that they have made the best choice by choosing ESCO for their fire protection equipment services, we offer 24 hour/365 days per year, emergency service. We utilize the services of Emergency 24, an Illinois-based UL-listed central monitoring service. Call us today to learn more about how ESCO can help you with your fire protection equipment needs!

## SOLUTIONS FOR YOUR SPECIFIC BUSINESS NEEDS

Some of Our  
Partners in  
Business

FireLite  
Silent Knight

Kidde  
StarLink

Amerex  
Halotron  
Clean Guard

ESCO has a low voltage division specializing in inspection, testing, and installation of fire alarm systems. We employ NICET certified design and installation staff. This NICET certification ensures that all our technicians are experts in active fire protection at every stage of the process.

NICET certified and state-licensed technicians are on staff to ensure that the commercial and industrial fire alarm system services we offer follow the latest code requirements and regulations regarding installation and inspection.

ESCO can provide services for a variety of fire alarm systems including but not limited to: Firelite, Silent Knight, Kidde, and Potter fire alarm systems.

## Fire Extinguishers

Within the realm of fire protection equipment and systems, the fire extinguisher stands as the primary defense line in the event of a fire before the arrival of the fire department. Therefore, it demands the same level of attention as more intricate fire safety equipment or systems.

Portable fire extinguishers necessitate an annual inspection, internal maintenance every 6 years, hydrostatic testing every 12 years, and refilling in accordance with NFPA 10 standards. We extend our services to cover these fire extinguisher maintenance needs, in addition to offering new, used, and refurbished fire extinguishers for sale.

Our team of fire prevention and protection experts ensures your safety by providing affordable protection solutions. We assist you in selecting the appropriate extinguishers, and our regular checks and replenishments guarantee they remain in optimal condition.

## Exit and Emergency Lights

### Power Outage Support

We have experience handling power outages caused by extreme weather conditions. Rest assured that in the event of a power failure in your building, our professionally installed exit and emergency lights will continue to operate, offering battery-powered illumination until normal power is restored.

### Emergency Lighting Systems

Our team provides continuous maintenance and repair services to ensure the constant functionality of your emergency lighting systems. Equipped with a diverse selection of replacement batteries, bulbs, and lenses, our service vehicles facilitate most onsite repairs.

Throughout the entire lifecycle, from design and implementation to the conclusion of their operational span, our systems are customized to meet the unique needs of our clients. We offer a comprehensive array of fire protection and prevention products to assist you in bringing your business into compliance with fire code regulations. Whether it's fire extinguishers, sprinkler systems, or alarm systems, we've got all your needs covered.

As we all know, emergency lighting is not only a legal requirement in many cases but also a fundamental element in creating a safe and secure environment for both employees and visitors. It contributes to the overall resilience and preparedness of a business in the face of unexpected events. We will be here to support you in all you lighting system needs!
