## CUSTOMIZED SOLUTIONS FOR YOUR TURN KEY NEEDS

- arc flash analysis
- drafting services
- electrical design
- electrical engineers
- electrical safety training
- EPC/design build services
- fire alarm design/build
- infrared programs and field work
- onsite audits
  - safety/procedures
  - site equipment
- OSHA/NFPA training
- QA/QC programs

- industrial IT
- plant automation
- plant services
- project management
- SCADA/PLC/HMI
- software development

- fiber optic/data
- lighting projects and upgrade
- prefabrication
- special systems
  - fire suppression system
  - burner management system
- turnkey installations
- UL panel construction
- wiring

- 24/7 support
  - electrical, automation, fire alarm
- instrumentation
  - design, procure, calibrate
- long-term maintenance support
- fire alarm, inspection testing and maintenance
- project managers

## VERSATILITY

ESCO is a versatile company that provides electrical construction, electrical engineering, plant automation, arc flash incident energy analysis, and electrical safety training services to a wide variety of commercial and industrial clients, primarily within the food & beverage, manufacturing, agriculture, and municipal markets. By empowering people, providing exceptional services, and delivering on promises, ESCO is known for responsible and reliable support and excellent, custom-made solutions.

Our versatility comes from our three business units: ESCO Automation, ESCO Electric, and ESCO Power. With our diverse group of resources, we are able to offer more services to our clients, giving them a competitive advantage, as well as a sole source provider for your automation, electrical, and instrumentation needs.

## RELIABILITY

ESCO has been known for our reliability for a long time. Our definition of reliability is to be available and dependable to our clients when they need us. We demonstrate this reliability through design, installation, project managers, and electrical engineers. We challenge each other and our clients to make processes more efficient, reliable, and safe.

## PARTNERSHIP APPROACH

When you work with ESCO, you are working with a company that forms strong relationships with our clients which gives us in-depth knowledge of your systems.

We understand what your needs are and how your process operates. We will partner with you and become an integral part of your team.

## SAFETY RECORD

At ESCO we recognize the importance of training our own employees in the practice of safety at the workplace. With our OSHA Recordable Incident Rate ("RIR") at 0, and our Experience Modification Rate ("EMR") coming in at 0.79, we continue to be well under the national average for work related injuries, which is where we intend to stay.

We hold daily meetings to discuss safety practices, and our safety directors make several onsite visits to help our employees recognize dangers.

We strive to continue educating our people in safety to keep them protected from the risk that is inherently present. Keeping our associates safe protects our most valued asset, our people, and allows us to perform efficiently for our clients.
