| <u>Suitable extinguishing media</u><br>Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |                                                                                                                      |  |
| Uncuitable extinguishing modia                                                                                                                 | Courtien: Llos of water enrow when fighting fire may be inefficient                                                  |  |

**Unsuitable extinguishing media** Caution: Use of water spray when fighting fire may be inefficient.

## Specific hazards arising from the chemical

No information available.

#### Explosion data

Sensitivity to Mechanical ImpactNone.Sensitivity to Static DischargeNone.

#### Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

#### **UNUSUAL FIRE & EXPLOSION HAZARDS**

Toxic Fumes may be evolved on burning or exposure to heat. Pressure may increase in overheated closed containers. Store below 120°F

# 6. ACCIDENTAL RELEASE MEASURES

# Personal precautions, protective equipment and emergency procedures

Personal precautions

Use personal protective equipment as required. Ensure adequate ventilation, especially in confined areas. Stop leak if you can do it without risk.

| Environmental precautions           | See Section 12 for additional ecological information.                                                                                                                                                                                              |  |  |
| Methods and material for containm   | ent and cleaning up                                                                                                                                                                                                                                |  |  |
| Methods for containment             | Prevent further leakage or spillage if safe to do so.                                                                                                                                                                                              |  |  |
| Methods for cleaning up             | Soak up with inert absorbent material. Prevent product from entering drains. Pick up and transfer to properly labeled containers.                                                                                                                  |  |  |
| Prevention of secondary hazards     | Clean contaminated objects and areas thoroughly observing environmental regulations.                                                                                                                                                               |  |  |
|                                     | 7. HANDLING AND STORAGE                                                                                                                                                                                                                            |  |  |
| Precautions for safe handling       |                                                                                                                                                                                                                                                    |  |  |
| Advice on safe handling             | Handle in accordance with good industrial hygiene and safety practice. Avoid breathing fume/mist/vapors/spray.                                                                                                                                     |  |  |
| Conditions for safe storage, includ | ing any incompatibilities                                                                                                                                                                                                                          |  |  |
| Storage Conditions                  | Keep away from heat, sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and static electricity). Keep containers tightly closed in a dry, cool and well-ventilated place. Store at temperatures not exceeding 120°F. |  |  |
| Incompatible materials              | Incompatible with oxidizing agents. Incompatible with strong acids and bases.                                                                                                                                                                      |  |  |
| 8. EX                               | POSURE CONTROLS/PERSONAL PROTECTION                                                                                                                                                                                                                |  |  |
| Control parameters                  |                                                                                                                                                                                                                                                    |  |  |
| Exposure Guidelines                 | This product, as supplied, does not contain any hazardous materials with occupational                                                                                                                                                              |  |  |
| Appropriate engineering controls    | exposure limits established by the region specific regulatory bodies.                                                                                                                                                                              |  |  |
| Engineering Controls                | Showers<br>Eyewash stations<br>Ventilation systems.                                                                                                                                                                                                |  |  |
| Individual protection measures, su  | ch as personal protective equipment                                                                                                                                                                                                                |  |  |
| Eye/face protection                 | Wear safety glasses with side shields (or goggles).                                                                                                                                                                                                |  |  |
| Skin and body protection            | Wear protective nitrile or Neoprene™ gloves.                                                                                                                                                                                                       |  |  |
| Respiratory protection              | No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required.                                                                           |  |  |
| General Hygiene Considerations      | Do not eat, drink or smoke when using this product.                                                                                                                                                                                                |  |  |

# **10. STABILITY AND REACTIVITY**

# Reactivity

Not Applicable

#### **Chemical stability**

Stable under recommended storage conditions.

## **Possibility of Hazardous Reactions**

None under normal processing.

#### Hazardous polymerization

Hazardous polymerization does not occur.

#### Conditions to avoid

Strong oxidizing agents. Heat, flames and sparks.

## Incompatible materials

Incompatible with oxidizing agents. Incompatible with strong acids and bases.

## Hazardous Decomposition Products

Thermal decomposition can lead to release of irritating and toxic gases and vapors.

# **11. TOXICOLOGICAL INFORMATION**

## Information on likely routes of exposure

**Product Information** 

No data available

Remarks • Method

| Inhalation   | Avoid breathing vapors or mists. Inhalation of vapors in high concentration may cause irritation of respiratory system.  |
|--------------|--------------------------------------------------------------------------------------------------------------------------|
| Eye contact  | Contact with eyes may cause irritation.                                                                                  |
| Skin Contact | Prolonged contact may cause redness and irritation.                                                                      |
| Ingestion    | Unlikely to cause harm if accidentally swallowed in small doses, though larger quantities may cause nausea and diarrhea. |

## Information on toxicological effects

| Symptoms | No information available. |
|----------|---------------------------|
|----------|---------------------------|

## Delayed and immediate effects as well as chronic effects from short and long-term exposure

| Skin corrosion/irritation         | Irritating to skin.                                                      |
|-----------------------------------|--------------------------------------------------------------------------|
| Serious eye damage/eye irritation | Irritating to eyes.                                                      |
| Irritation                        | May cause skin and eye irritation. PROLONGED OR REPEATED CONTACT MAY DRY |
|                                   | SKIN AND CAUSE IRRITATION.                                               |
| Sensitization                     | No information available.                                                |
| Germ cell mutagenicity            | No information available.                                                |
| Carcinogenicity                   | No information available.                                                |
| Reproductive toxicity             | No information available.                                                |
| STOT - single exposure            | No information available.                                                |
| STOT - repeated exposure          | No information available.                                                |
| Aspiration hazard                 | No information available.                                                |
|                                   |                                                                          |

Numerical measures of toxicity - Product Information

#### The following values are calculated based on chapter 3.1 of the GHS document

| ATEmix (oral)                 | 4004 | mg/kg |
|-------------------------------|------|-------|
| ATEmix (inhalation-gas)       | 1400 | mg/l  |
| ATEmix (inhalation-dust/mist) | 3 mg | g∕l   |

# **12. ECOLOGICAL INFORMATION**

#### **Ecotoxicity**

Harmful to aquatic life with long lasting effects

0.003% of the mixture consists of components(s) of unknown hazards to the aquatic environment
