SAFETY DATA SHEET

WL09210

Section 1. Identification

Product name	: WHITE LIGHTNING® Silicone Rubber All Purpose Sealant (RTV Formula) White
Product code	: WL09210
Other means of identification	: Not available.
Product type Relevant identified uses of t	: Liquid. he substance or mixture and uses advised against
	ne substance of mixture and uses advised against
Not applicable.	
Manufacturer	: White Lightning Products 101 West Prospect Avenue Cleveland, OHIO 44115
Emergency telephone number of the company	: (216) 566-2917
Product Information Telephone Number	: (800) 241-5295
Regulatory Information Telephone Number	: (216) 566-2902
Transportation Emergency Telephone Number	: (800) 424-9300

Section 2. Hazards identification

OSHA/HCS status	: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).					
Classification of the substance or mixture	CARCINOGENICITY - Category 2 FOXIC TO REPRODUCTION (Fertility) - Category 2 SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2 Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 82.2%					
GHS label elements						
Hazard pictograms						
Signal word	: Warning					
Hazard statements	: Suspected of damaging fertility. Suspected of causing cancer. May cause damage to organs through prolonged or repeated exposure.					
Precautionary statements						
General	: Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.					
Prevention	: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. Do not breathe vapor.					
Response	: Get medical attention if you feel unwell. IF exposed or concerned: Get medical attention.					
Date of issue/Date of revision	: 7/2/2015. Date of previous issue : 3/13/2015. Version : 1.01 1/11					

Section 2. Hazards identification

Storage	: Store locked up.			
Disposal	Dispose of contents and container in accordance with all local, regional, national and international regulations.			
Supplemental label elements	WARNING: This product contains a chemical known to the State of California to cause cancer. FOR INDUSTRIAL USE ONLY.			
	Please refer to the SDS for additional information. Do not transfer contents to other containers for storage.			
Hazards not otherwise classified	: None known.			

Section 3. Composition/information on ingredients

Substance/mixture	: Mixture
Other means of	: Not available.
identification	

CAS number/other identifiers

Ingredient name	% by weight	CAS number
Middle Petroleum Distillates	5.0	64742-46-7
Acetic Acid	2.9	64-19-7
Titanium Dioxide	1.0	13463-67-7
Octamethylcyclotetrasiloxane	0.5	556-67-2

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessar	<u>y first aid measures</u>
Eye contact	 Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
Skin contact	: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.
Ingestion	: Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

Most important symptoms/effects, acute and delayed Potential acute health effects

Date of issue/Date of revision	: 7/2/2015.	Date of previous issue	: 3/13/2015.	Version : 1.01	2/11

Section 4. First aid measures

Eye contact	: No known significant effects or critical hazards.				
Inhalation	: No known significant effects or critical hazards.				
Skin contact	: No known significant effects or critical hazards.				
Ingestion	: No known significant effects or critical hazards.				
<u>Over-exposure signs/sym</u>	<u>ptoms</u>				
Eye contact	: No specific data.				
Inhalation	: Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations				
Skin contact	: Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations				
Ingestion	: Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations				
Indication of immediate me	dical attention and special treatment needed, if necessary				
Notes to physician	 Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. 				
Specific treatments	: No specific treatment.				
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.				

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide metal oxide/oxides
Special protective actions for fire-fighters	 Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protect	uipment and emerge	ncy procedures
For non-emergency personnel	acuate surrounding are ering. Do not touch or vide adequate ventilat	nvolving any personal risk or without suitable training. as. Keep unnecessary and unprotected personnel from walk through spilled material. Avoid breathing vapor or mist. on. Wear appropriate respirator when ventilation is priate personal protective equipment.
For emergency responders		equired to deal with the spillage, take note of any information in unsuitable materials. See also the information in "For non-
Environmental precautions		material and runoff and contact with soil, waterways, drains elevant authorities if the product has caused environmental ays, soil or air).
Methods and materials for co	nent and cleaning up	
Small spill	ater-soluble. Alternati	Nove containers from spill area. Dilute with water and mop up vely, or if water-insoluble, absorb with an inert dry material and aste disposal container. Dispose of via a licensed waste
Large spill	vind. Prevent entry int lages into an effluent t lage with non-combus tomaceous earth and p e Section 13). Dispose corbent material may p	Nove containers from spill area. Approach release from o sewers, water courses, basements or confined areas. Wash reatment plant or proceed as follows. Contain and collect ible, absorbent material e.g. sand, earth, vermiculite or place in container for disposal according to local regulations of via a licensed waste disposal contractor. Contaminated ose the same hazard as the spilled product. Note: see contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling

Protective measures	: Put on appropriate personal protective equipment (see Section 8). Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Date of issue/Date of revision	: 7/2/2015.	Date of previous issue	: 3/13/2015.	Version : 1.01	4/11
--------------------------------	-------------	------------------------	--------------	----------------	------

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

Ingredient name	Exposure limits	
Acetic Acid Titanium Dioxide	ACGIH TLV (United States, 4/2014) TWA: 10 ppm 8 hours. TWA: 25 mg/m³ 8 hours. STEL: 15 ppm 15 minutes. STEL: 37 mg/m³ 15 minutes. NIOSH REL (United States, 10/201) TWA: 10 ppm 10 hours. TWA: 25 mg/m³ 10 hours. STEL: 15 ppm 15 minutes. STEL: 37 mg/m³ 15 minutes. STEL: 37 mg/m³ 15 minutes. OSHA PEL (United States, 2/2013) TWA: 10 ppm 8 hours. TWA: 25 mg/m³ 8 hours. ACGIH TLV (United States, 4/2014) TWA: 10 mg/m³ 8 hours. OSHA PEL (United States, 2/2013) TWA: 10 mg/m³ 8 hours. TWA: 15 mg/m³ 8 hours. Form: Tot	3).).
Appropriate engineering controls	: If user operations generate dust, fumes, gas, vapor or mist, use process enclo local exhaust ventilation or other engineering controls to keep worker exposur airborne contaminants below any recommended or statutory limits.	
Environmental exposure controls	: Emissions from ventilation or work process equipment should be checked to e they comply with the requirements of environmental protection legislation. In cases, fume scrubbers, filters or engineering modifications to the process equi will be necessary to reduce emissions to acceptable levels.	some
Individual protection measu	<u>es</u>	
Hygiene measures	: Wash hands, forearms and face thoroughly after handling chemical products, eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clewash contaminated clothing before reusing. Ensure that eyewash stations ar showers are close to the workstation location.	othing.
Eye/face protection	: Safety eyewear complying with an approved standard should be used when a assessment indicates this is necessary to avoid exposure to liquid splashes, r gases or dusts. If contact is possible, the following protection should be worn the assessment indicates a higher degree of protection: safety glasses with s shields.	mists, , unless
Skin protection		
Hand protection	: Chemical-resistant, impervious gloves complying with an approved standard s worn at all times when handling chemical products if a risk assessment indica necessary. Considering the parameters specified by the glove manufacturer, during use that the gloves are still retaining their protective properties. It shou noted that the time to breakthrough for any glove material may be different for glove manufacturers. In the case of mixtures, consisting of several substance protection time of the gloves cannot be accurately estimated.	ates this is check uld be r different
Body protection	: Personal protective equipment for the body should be selected based on the t performed and the risks involved and should be approved by a specialist befo handling this product.	
Other skin protection	: Appropriate footwear and any additional skin protection measures should be s based on the task being performed and the risks involved and should be appr specialist before handling this product.	
Date of issue/Date of revision	: 7/2/2015. Date of previous issue : 3/13/2015. Version : 1.01	5/11

Section 8. Exposure controls/personal protection

: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Section 9. Physical and chemical properties

<u>Appearance</u>		
Physical state	1	Liquid.
Color	:	Not available.
Odor	:	Not available.
Odor threshold	:	Not available.
рН	:	Not available.
Melting point	:	Not available.
Boiling point	:	244°C (471.2°F)
Flash point	:	Closed cup: >93.3°C (>199.9°F) [Pensky-Martens Closed Cup]
Evaporation rate	:	0.97 (butyl acetate = 1)
Flammability (solid, gas)	:	Not available.
Lower and upper explosive (flammable) limits	;	Lower: 5.4% Upper: 19.3%
Vapor pressure	:	0.13 kPa (1 mm Hg) [at 20°C]
Vapor density	:	2.07 [Air = 1]
Relative density	:	1.06
Solubility	:	Not available.
Partition coefficient: n- octanol/water	:	Not available.
Auto-ignition temperature	:	Not available.
Decomposition temperature	:	Not available.
Viscosity	:	Kinematic (room temperature): >0.07 cm²/s (>7 cSt) Kinematic (40°C (104°F)): >0.07 cm²/s (>7 cSt)
Aerosol product		

Heat of combustion

: 5.139 kJ/g

Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: No specific data.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Information on toxicological effects Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
Acetic Acid	LC50 Inhalation Vapor	Rat	11000 mg/m ³	4 hours

Section 13. Disposal considerations

Disposal methods :	The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Special precautions for user : Multi-modal shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transport (sea, air, etc.), does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment, and compliance with the applicable regulations is the sole responsibility of the person offering the product for transport. People loading and unloading dangerous goods must be trained on all of the risks deriving from the substances and on all actions in case of emergency situations.

Transport in bulk according : Not available. to Annex II of MARPOL 73/78 and the IBC Code

Section 15. Regulatory information

U.S. Federal regulations

State regulations California Prop. 65

WARNING: This product contains a chemical known to the State of California to cause cancer.

Section 16. Other information

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.

Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.

issue : 3/13/2015.
